Dear President Truman:

Your stand on the McCarran Bill was appreciated by American Jewry, particularly those who have been fighting for a square deal for Europeans desiring to come to America and able to pass the normal immigration requirements.

X 76-C

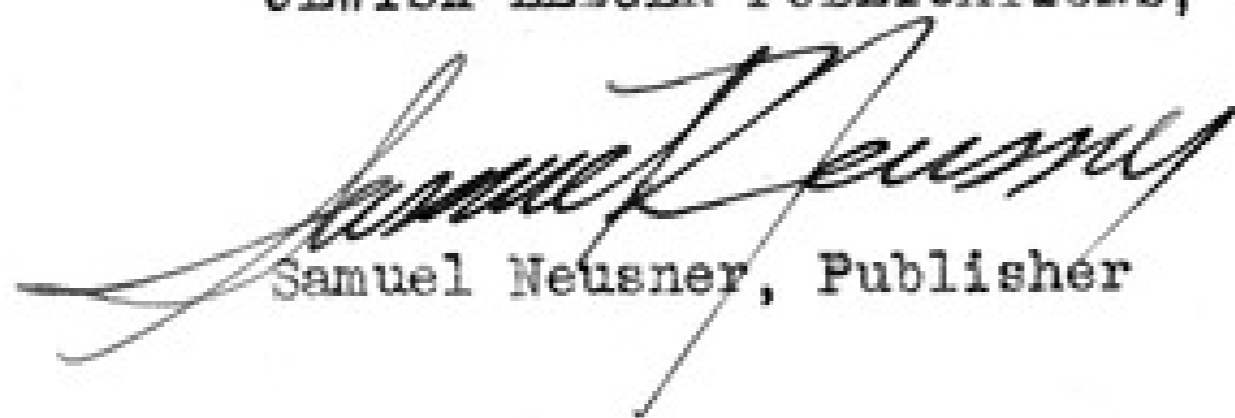

Not only the Jewish people, but everyone in American life who is interested in fair play will applaud your veto on the McCarran Immigration Bill, and will support you in every way possible when a reasonable immigration bill is presented before the next Congress.

The reaction in this letter comes not only from me, but from some of the outstanding people in this area with whom we have had a chance to speak.

I am writing this letter to you so that you may know that you are not alone in this great battle.

Respectfully yours,
