Dear Sir;

I have been meaning to write for a long time and am now getting around to it. I would like to say that you have been acting more like a foreign dictator than an American president. You have been playing politics with the steel situation when you should have taken prompt action! And, more in utter defiance of and with complete disregard for the wishes of the over-

Over

2  
whelming majority of the American people  
You have just vetoed the McClarran-Walter  
bill. That clique around you haven't  
got the interests of the people at  
heart! As an American you should  
disregard such people with their  
alien ideas. As far as I am con-  
cerned your Administration must be  
voted out of office and I intend  
to help do just that!

Yours truly,  
John B. Leonard.
