Sunday Evening.

Dear Boss:-

We have kept our schedule to the dot.

Got to Council Grove at 7:30 P.M. and met
 all the prominent citizens in town, at the
 Building + Loan Assn office. You'd think I
 was the President of the U.S. We discussed
 the National Old Trails, crossed Osage
 City the next large town to the east (We'll
 do the same for them when we go to Osage)
 and came on here to Herington. Arrived
 at 5:45 left Council Grove at 5:45. It is
 46 miles so we lost no time on the finest
 dirt road you ever saw. Had a flat tire
 at Burlingame. The hotel man called a
 garage and had it fixed while we at the
 finest chicken dinner you ever saw
 with the leading lawyer, the county

Judge (Commissioner they call him out here)
and a couple of other prominent citizens.
Tonight we'll do the same here. It
has been meeting since 3 P.M. I don't
know if it is going to rain but I hope
not. I am feeling fine and dandy.
My voice is improved. I've eaten
a box of the whiskered Pecos cough
drops. Be sure and kiss my baby and
look in the mirror for one for yourself.
Will write you tomorrow. I wish you
and the young lady were here. Love
to you both by the bushel

Your
Harry

They're calling supper. As they say
in business "dictated but not read."
