

# Judge Truman

## And His City and County Taxes

When he made his declaration for the office he is now holding (and he wants it again,) he gave Independence, Missouri, as his home, 219 North Delaware Street. That would mean he should pay City Taxes the same as any other taxpayer. The records at the City Hall don't show he pays a cent. That alone should disqualify him as a candidate for Eastern Judge. But don't stop there, just take a look at his County Tax. His sworn statement to the County Assessor, June 12, 1923, over his signature (Harry S. Truman) turned in at the Kansas City Court House is as follows:

Harry S. Truman (merchant) Grandview, Mo.

One Horse . . . . .	\$ 30.00
One Automobile . . . . .	50.00
Household Goods . . . . .	150.00
	<hr/>
	\$230.00

This means his County Taxes is the paltry sum of 98 cents. (His salary alone is \$5,000.00 per year.) Compare these figures to your own and see if you are getting a square deal from the man who wants your vote August 5th. Think it over Mr. Taxpayer; just be square with yourself. These records are your property and you can see them at any time. Truman-McElroy or the \$20,000.00 Experts (Arthur Young & Co.) who got up the misleading statement as to the (phony) surplus cannot juggle these figures. If any Goat denies this take them to the records.

WM. F. LEWIS, Chairman,  
Hood Publicity Committee.

P. S.—If this is what the Goats call mud slinging then there is no such a thing as truth.

(Pass this to your neighbor)
