Ambassador Tehran

FOR HARRISON FROM PRESIDENT

I am deeply appreciative of the intensive and skillful efforts you have been making to prevent a collapse in the oil negotiations and want you to know that you have my wholehearted support. If you find it necessary to make a statement of the kind mentioned in your telegram 709 August 19, I will take the earliest possible occasion to say that such statement has my fullest approval.

I realize that the next few days are crucial and that tremendous difficulties confront you. Nevertheless I am encouraged to think that with your skillful guidance the British and Iranians may still be able to work out a mutually agreeable solution.
