NR: JCS 84681
    29 JUN 50

From: JCS

1. This directive consolidates, broadens and
    supplements existing instructions governing your actions
    with regard to situation in South Korea and Formosa.

2. In support of resolutions of United Nations,
    approved on 25 June (transmitted as WGL 29651, 28 June 50)
    and 27 June (transmitted as WGL 30453):

   A. You will employ naval and air forces available
      to the Far East Command to provide fullest
      possible support to South Korean forces by attack
      on military targets so as to permit these forces to
      clear South Korea or North Korean forces.

   B. Employment of army forces will be limited
      to essential communications and other essential
      service units, except that you are authorized to
      employ such army combat and service forces as to
      insure the retention of a port and air base in the
      general area Pusan-Chinese.

   C. By naval and air action you will defend
      Formosa against invasion or attack by Chinese
      Communists and will insure that Formosa will not be
      used as a base of operations against the Chinese
      mainland by Chinese Nationalists.

3. Seventh Fleet is assigned to your operational
    control. CINCPAC and CINCPACIFIC will support and reinforce
    you as necessary and practicable.

4. You are authorized to extend your operations into Northern Korea against air bases, depots, tank farms, troop columns and other such purely military targets, if and when, in your judgment, this becomes essential for the performance of your missions as given in paragraphs 2A and 3, or to avoid unnecessary casualties to our forces. Special care will be taken to assure that operations in North Korea stay well clear of the frontiers of Manchuria or the Soviet Union.

5. You are authorized to send to Korea any munitions and supplies from resources at your disposal which you deem necessary. You will submit your estimates of amounts and types of aid required from sources outside your control.

6. The decision to commit United States air and naval forces and limited Army forces to provide cover and support for South Korean troops does not constitute a decision to engage in war with the Soviet Union if Soviet forces intervene in Korea. The decision regarding Korea, however, was taken in full realization of the risks involved. If Soviet forces actively oppose our operations in Korea, your forces should defend themselves, should take no action to aggravate the situation, and you should report the situation to Washington.
